

ABSTRACT

A COMPOSITION FOR PERMANENT DYEING
OF KERATINOUS FIBRES

EUGENE PERMA

INVENTION OF :

Gérard DUCHERON
Hélène JAUFFRET

A composition for the permanent dyeing of keratinous fibres, comprising at least one dye precursor, at least one alkaline agent, and at least one oxidizing compound, and further comprising:

- a protein hydrolyzate,
- a quaternized copolymer of di-methylallyl ammonium and acrylic acid,
- a N-methyl triethanolamine methylsulphate di-alkyl ester, and
- a di-alkyl carbonate.
